Services and sector groups

- Real Estate
- Technology, Data, and AI
- Automotive Dealership
- Real Estate Development

Jamie represents property owners, developers, and prospective land buyers in real estate matters. He advises clients across industries, including telecommunications, housing, athletics, finance, and construction, focusing on the sale, purchase, maintenance, and leasing of real property.

He handles transactional and land use matters, with a specific focus on the development of wireless telecommunications tower sites. He advises clients on routine property matters, including disputes and changing compliance regulations. He represents clients throughout the development process, including in proceedings before municipal planning commissions, governing bodies, and zoning hearing boards throughout Pennsylvania.
